Vote API Documentation

The vote API allows for votes to be added to a post, removed from a post, and for different get functions to be performed.

HTTP Method	URI	Action
POST	http://localhost2015/votes/upvotes	Add a vote to a post.
POST	http://localhost:2015/votes/downvotes	Add a downvote to a post.
GET	http://localhost:2015/votes/get?vote_id=0	Get votes by id.
GET	http://localhost:2015/votes/getTop?n=2	Get most popular posts.
GET	http:// localhost:2015/getList	Get posts sorted by popularity.
